What is a Tree-Planting Event?

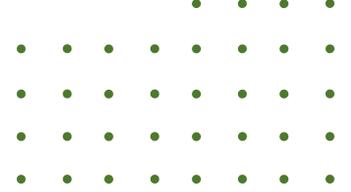

Planting trees is a great way to engage employees, customers, community members, or students in an immersive environmental experience.

Most of all, it's FUN!

Trees4Trees will organize and oversee the tree-planting and social events, ensuring a meaningful and positive impact on the environment and local community. The event theme can be tailored to your preference, including environmental celebration days, a company celebration or a ceremony.

Why Trees?

Trees play a vital role in enhancing our environment and sustaining life on Earth. They act as nature's air purifiers and clean the water we drink. They absorb greenhouse gases, conserve water sources, and support biodiversity.

When you plant a tree with Trees4Trees, it does more than just put a tree in the ground and help the environment. It also helps local farming families improve their well-being, and by doing so, ensures that farmers will continue to plant trees in the future.

Services We Provide

Trees4Trees handles all of the event details, from site selection to event management. As part of the event service, Trees4Trees will provide:

- **Tree seedlings**
- **Tree planting location**
- **Permits and licenses with landowners, local government and local community**
- **A banner on behalf of the company or organization on the event site for photo ops**
- **Tree Planting certificate for event participants**
- **Documentation during the event (video drone, photography, or video production) can be provided***
- **Logistics, equipment, and transportation during the event can be provided***

What to Expect

Planting trees in rural or urban areas with educational activities

Direct engagement between participants and the local community

Your company or organization is recognized as a responsible member of the community, committed to helping the environment and supporting local villages.

The trees you plant can be visited online and shared on social media by scanning the QR code on your E-Certificate.

Trees4Teams

What Tree Species Will Be Planted During the Event?

We offer a wide selection of tree seedlings for planting, including Mahogany, Albizia, Teak, Rain Tree, Avocado, Durian, Mangrove, and more*. The choice of trees to be planted will be tailored to fit the specific ecological conditions and the preferences of the local community.

When and Where Can We Do the Event?

Tree planting events are ideally scheduled during the rainy seasons, which fall between November and February each year. Nevertheless, we are flexible and can accommodate tree planting events at your preferred time.

Our current locations are in Central Java and West Java. If you have other areas in mind, feel free to reach out to us to discuss other locations.
